

**ICRA 2016 Conference talks on Friday 19 August**  
Plenary talks in Auditorium 001

9:00 - 9:50	Bernard Leclerc: <i>Cluster algebras and representations of Borel subalgebras of quantum loop algebras</i>
9:50 - 10:20	Coffee break
10:20 - 11:10	Jiarui Fei: <i>Tensor multiplicity via upper cluster algebras</i>
11:20 - 12:10	Igor Burban: <i>Fourier-Mukai transform on Weierstrass cubic and commuting differential operators</i>
14:00 - 14:50	Julian Külshammer: <i>Higher Nakayama algebras</i>
15:00 - 15:30	Special plenary lecture by ICRA Award winner Greg Stevenson: <i>Categories with sufficiently many exact sequences</i>
15:30 - 16:00	Coffee break
16:00 - 16:50	Jan Trlifaj: <i>Tree modules, and limits of the approximation theory</i>
